C. RECOMMENDED IMMUNIZATIONS

1. Hepatitis B

Documentation of three doses of hepatitis B vaccine, and a positive hepatitis B surface antibody titer are necessary. Alternatively, immunity may be documented by a positive hepatitis B core antibody. The hepatitis B vaccination is required for clinical training but is not required for registration at the University. If the hepatitis B vaccination has not been received prior to registration, it will need to be completed during the first two years of medical school. This must be followed with a serology for hepatitis B surface antibody.
